

GERMAN AIR RAID OVER LONDON DOES WORST DAMAGE DURING WAR; 534 CASUALTIES INCLUDE MANY WOMEN

Women, Children and Poor Among Ninty-Seven Killed

15 PLANES AND ALL ESCAPE BUT ONE

Drop Many Bombs in Business Section of London—437 Wounded—Attack Heaviest London Has Ever Suffered From Raid—Damage Small in Money—People Curious and Stand in Streets Till Ordered to Seek Shelter.

London, England, June 13.—In a swift and deadly raid on the city of London today German airplanes took a heavy toll in killed and wounded. One plane was brought down. Other planes were attacked but so far as it is known at present by far the heaviest losses occurred in London.

At a late hour tonight the casualties as officially announced numbered 534, including 97 killed and 437 wounded. Fifty-five men met death and 223 men were wounded. Sixteen women and 26 children were killed and 122 women and 94 children were wounded.

The German squadron consisted of about 15 machines and the down town section of London was their chief object. Many bombs fell in the east end where buildings were destroyed and badly damaged and scores fell victims. In one instance alone 10 children in a school were killed and 50 injured.

British Pursue.

British airplanes ascended immediately. The signal was given that hostile machines were coming, but the Germans remained at a great height and flew swiftly and the British fliers had difficulty in pursuit. Others are reported to have been brought down, but there is no official confirmation of this. The anti aircraft guns seemed to be unable to reach the Germans.

While a great many business houses and homes of the poor suffered great damage. Field Marshal French announced that no damage of a military or naval nature was done. The east end stood the strain of the raid well and there was no panic such as one might expect to find among a population of this kind, which is largely foreign. Business was at a standstill for a few minutes and a great throng about the wrecked buildings, but they were orderly crowds bent on seeing what damage the Germans had done.

Large Damage.

And there was plenty of damage to see, for scores of buildings had suffered and more than one was still smoking from fires which the engines were working upon. In some sections of the city traffic was held up almost entirely owing to the dense crowds and to the work being done by police and firemen. Every available policeman was called to the scene, even the night policemen being rooted out to handle the situation.

Throughout the bombed area there was a steady movement of ambulances. One hospital, which is partly supported by donations from New York and has been used largely for wounded soldiers, probably got the most patients. These soldiers did yeoman work as the injured arrived, not in caring for those hurt, but to giving comfort to relatives who gathered about the building to learn the fate of those being carried within. In and out among the crowd of women, many of them with infants in their arms, huddled soldiers on crutches stopping here and there to drop a word of sympathy and encouragement.

Money Loss Small.

While the damage done in the east end was considerable, it is probable that the money loss will not be heavy, because the many buildings wrecked were those of small business men. The raid had hardly been over when the King, hearing of the damage, motored into the damaged districts. His confidence appeared to be appreciated. Later the King visited the hospital.

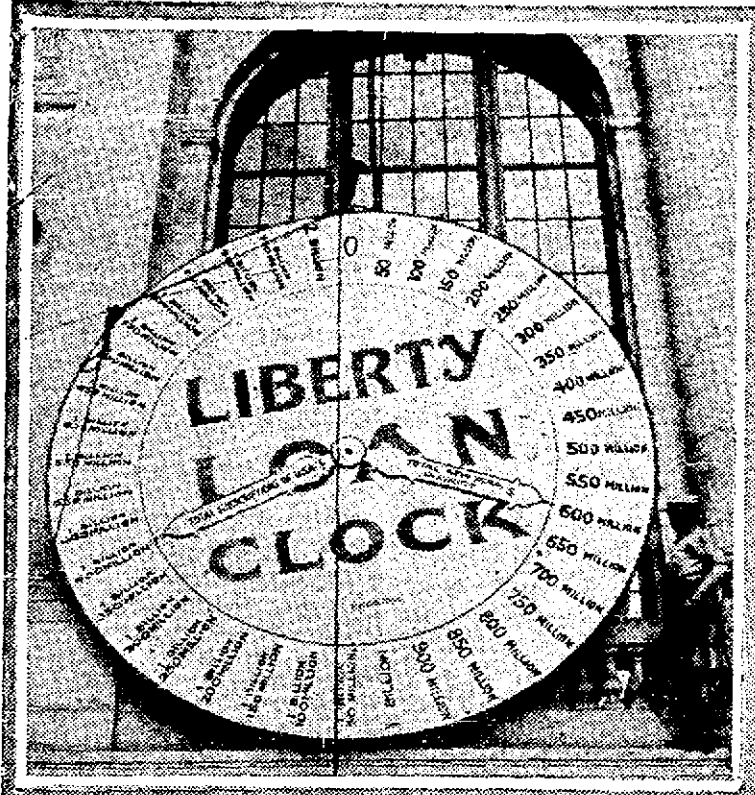

The main result of today's raid as in past cases has been the killing of civilians, including many children. No military damage was done as there are no military objectives in the section visited. It was not the case of accurate dropping of bombs. In the East End for instance a bomb could not have been dropped without doing damage. The bombs cut a wide circular path through the eastern part of the city and a large number of explosives were dropped in rapid succession. The course the raiders took can easily be traced by the damage.

Children Escape.

In some places a whole block is backing every window and much other damage was done. One school in this district had a lucky escape. There are a thousand pupils in that school and 15 minutes after the children entered a bomb was dropped where hundreds of them had been gathered.

The airplanes appeared at half past eleven this morning. The sound of the explosion of bombs in the East End and of anti aircraft gave the public warning of danger. Vehicular traffic stopped instantly. Omnibus drivers ordered all passengers to alight and busses, taxis, wagons and lorries were left entrapped in the streets until the danger was passed. Shop keepers and their patrons, barbers and their customers quietly and promptly adjourned their business and

PERSHING AND STAFF IN PARIS

Greeted By Allied Officers and Soldiers on Quay

GIVEN BIG WELCOME

Troops Cheer Lustily, and Roar Taken Up By People in Streets of French City

Boulogne, France, June 13.—Major General John J. Pershing, accompanied by his staff, today put his foot on French soil as commander of the American military expedition.

French, British, Belgian and Indian officers and soldiers saluted their new allied comrade, the American national anthem was played by a military band, and a guard of honor stood at present arms as the ship bearing the American general came into dock. General Pershing stood on the quarter deck, surrounded by 45 American staff officers and 67 American enlisted men. On the quay was a brilliant assemblage of French officers and officials, and on the landing stage were thousands of soldiers, most of them British, either going on leave to England or returning to the trenches. As the gang plank was let down on the quay, the Star Spangled Banner was changed to the Marseillaise. Among those who greeted General Pershing was General Pélissier, who will be attached to the General's staff.

There was perfect silence when General Pershing descended the gang way to the pier. Then there came a gigantic roar from the soldiers on the pier, which extended gradually along the harbor until it reached the streets of the town, where it was taken up by the public. General Pershing inspected the guard of honor, composed of veteran territorials, many of whom have seen fighting on every part of the front and whose breasts glittered with medals.

While the train which was to take General Pershing to Paris was being made up, the American commander with his staff and accompanied by French officials drove in autos through the principal streets of Boulogne. On the train the General was accorded an ovation.

20,000 LIVING IN STREETS

People of Devastated San Salvador Made Homeless by Earthquake.

Washington, D. C., June 13.—At least 20,000 persons are living in the streets and parks of San Salvador made destitute and without food and shelter by the earthquake and volcanic eruption. The situation is made worse by the fact that the rainy season has set in. Railway lines leading into the capital have been badly damaged and temporary cart roads are being built to bring food into the stricken centers.

BRITISH TAKE PRISONER 7,314.

London, England, June 13.—Our total captures since the morning of June 7, says the official report from British headquarters in France, include 7,314 prisoners, among them 145 officers; also 47 guns, 242 machine guns and 60 trench mortars.

WAR BUDGET BILL PASSED

Votes Greater Sum Than Used For Civil War

GIVEN BIG WELCOME

War Tax Bill Still Under Committee Consideration; Differences on Shipment Bill Smoothed

Washington, D. C., June 13.—The \$2,000,000,000 war budget finally got over the last obstacle in congress today and went to President Wilson for his signature.

It appropriates the greatest sum ever voted at any time. Its amount is greater than the total cost of the Civil War. Aside from the feature of providing money for the army and navy there is one of \$750,000,000 for an American merchant marine to be constructed by the shipping board under the direction of Major General Goethals. At the last moment there was a question in the senate over whether the language which placed General Goethals in charge of the work had been sufficiently definite so he could not be forced out of office without consulting congress.

Important questions regarding taxation regarding incomes and excess profits and the publishers' tax bill were undetermined tonight after the senate finance committee had spent another day completing revision of the house war tax bill. Final redrafting of the bill this week for beginning of senate debate next week is regarded as assured, however, although the unsettled problems greatly affect the total revenue to be raised.

The committee has gone through the entire measure and little time will be required to put it into shape once the few troublesome questions are disposed of. The excess profits question was completed today, except for fixing the rate and determination of whether the tax shall be extended to individuals as well as corporations and partnerships. Under the new plan of making an average of profits during three years before the war, the basis of computing profits, it is estimated that in lieu of the present \$200,000,000 tax upon excess profits, about \$525,000,000 at least will be raised if the house tax bill of 16 per cent is retained. The house estimate was \$400,000,000.

Differences delaying passage of the administration's priority shipment bill were smoothed out by senate leaders in a conference late today and an agreement was tentatively reached to change the measure so as to empower the president to determine preferences for food stuffs and other shipments.

BIG DRIVE FOR LIBERTY LOAN

Still \$342,000,000 Short of Necessary Amount

NEW YORK DOES WELL

This Federal Reserve District Exceeds Allotment; Rome, N. Y. Far Ahead of Requirements

Washington, D. C., June 13.—Treasury officials announced today that the Liberty loan apparently was short \$342,000,000 of full subscriptions Tuesday night, two and one-half days before the closing of the books. Announcement was based on actual returns forwarded by banks and trust companies to the 12 reserve banks accompanied by the 2 per cent subscription requirement. Thousands of banks and trust companies have not been heard from except from statements that they were working for success.

A tremendous eleven hour drive throughout the nation officials hope, will bring the final count of dollars well beyond the \$2,000,000,000 mark. The only tangible evidence on which to base an estimate, however, are the returns from the reserve banks at the close of business last night.

New York, June 13.—Total subscriptions to the Liberty loan in the New York federal reserve districts were approximately \$850,000,000 at the close of business tonight, the Liberty loan committee announced.

The rush of applications received from both large and small subscribers made the committee sanguine that its self appointed task of selling \$1,000,000,000 worth of bonds before Friday night would be accomplished. The applications actually received totaled \$93,279,000 out of a total allotment of \$283,000,000. This shows a gain of about \$21,000,000 between Monday noon and Tuesday night.

New York is the only district which has returned subscriptions higher than its allotment. Not only has New York exceeded the minimum, it has topped the maximum of \$750,000,000 by \$8,000,000.

Rome, N. Y., June 13.—Liberty Loan—Up to noon today \$1,414,750 worth of Liberty bonds either had been purchased or subscribed for in this city. The allotment for Rome was \$903,000.

This sum has been over-subscribed 56 per cent and subscriptions are still coming in.

Albany, June 13.—State employees in this city have purchased Liberty bonds to the value of nearly \$100,000, according to reports received tonight by Governor Whitman.

Executive chamber, \$5,450; attorney general's office, \$30,000; public service commission, \$18,850; superintendent of public works, \$8,000; adjutant general, \$4,500; health department, \$13,800; industrial commission, \$6,300; agricultural department, \$4,000.

CENSUS NOW SHOWS 92% OF ESTIMATES

THIRTY-NINE STATES HAVE REPORTED, NINE REMAINING

Washington, D. C., June 13.—Thirty-nine states and the District of Columbia had reported their war registration returns tonight when the provost marshal general's office closed showing an enrollment of 7,776,434 or more than 92 per cent of the census estimate of 8,412,852 eligible.

Of the total registered 5,903,086 are white; 888,240 colored; 891,079 aliens and 94,929 alien enemies. The total indicated exemptions are 4,201,869.

If the remaining nine states should maintain the average of more than 92 per cent the total registration would exceed 9,500,000.

It was officially explained tonight that the original census estimate of eligibles was 10,078,000 and that the figure 10,298,000 on which all comparisons have been based was the result of furnishing liberal allotments of registration cards to cities.

RESERVIST FOUND GUILTY.

Boston, Mass., June 13.—Werner Horn, who declared himself an officer of the German Landwehr, was found guilty today in the federal court on a charge of unlawfully transporting dynamite in interstate commerce. Horn was arrested in February, 1915, after an attempt to blow up the international bridge at Vanceboro, Maine. The sentencing of Horn was deferred at the request of his counsel who asked for an opportunity to prepare exceptions, which will be made the basis of an appeal.

ROOT REACHES PETROGRAD.

Petrograd, Russia, June 13, via London, England.—The American mission headed by Elihu Root has arrived here.

The American railroad commission, headed by John R. Stevens, arrived in Petrograd today. The commission consists of 11 members and was escorted into the capital by M. Metinsky, Russian representative.

At the Nikolai station awaiting to greet the Americans were David R. Francis, the American ambassador, the staff of the embassy and the American consulate and M. V. Nekragoff, minister of ways and communications in the Russian cabinet. In the statement made immediately after his arrival Mr. Stevens said that the commission's aim was to aid the Russian people and government by placing at Russia's disposal America's technical skill and industrial resources.

NUMBER OF VESSELS SUNK INCREASING

TWO SHIPS SUBMARINED AND 190 PERISH; CREWS SAVED

The weekly British report of vessels sunk by mines or submarines shows the greatest number of vessels meeting with disaster since the report of May 6 to 22, of more than 1,600 tons each and ten of less than 1,600 each. Two vessels not included in the British report have been sent to the bottom by German submarines. The French Sequana of 5,557 tons and the British steamer, Angelian of 5,532 tons. The crew of the Angelian was saved but 190 persons on board the Sequana perished.

NEW D. & H. SCHEDULE

PROVIDES FOR MORNING TRAIN TO ALBANY AND NIGHT TRAIN FROM THAT CITY.

Two Morning Trains from Binghamton Are Merged, Arriving Here at 7:29 and Noon Train and Evening Local from Albany Merged, Arriving Here at 5:30 O'clock.

According to a proposed schedule on the Susquehanna division, which Vice President J. T. Loree of the D. & H. company submitted to the committee of the Oneonta Chamber of Commerce at the office of Supt. McCarty in this city yesterday afternoon, trains north-bound will after June 24 run as follows: No. 303—Leave Binghamton at 5:15 a. m., arrive in Oneonta at 7:29 and Albany at 10:25 o'clock. Train 307—Leave Binghamton at 9 a. m., arrive in Oneonta at 10:30 and Albany at 2 p. m. Train 309—Leave Binghamton at 2:30 p. m., arrive in Oneonta at 4:10 and Albany at 7:10 p. m. Train 311—Leave Binghamton at 6:10 p. m., arrive in Oneonta at 8:25 and Albany at 11 o'clock. Trains south-bound would run as follows: Train No. 302—Leave Albany at 7:30 a. m., arrive in Oneonta at 10:35 and Binghamton at 12:45 p. m. Train No. 304—Leave Albany at 2:15 p. m., arrive in Oneonta at 5:30 and Binghamton at 7:45 p. m. Train No. 308—Leave Albany at 4:30 p. m., arrive in Oneonta at 6:50 and Binghamton at 8:40 o'clock. Train No. 312—Leave Albany at 11:45 p. m., arrive in Oneonta at 2:30 a. m., stopping at Oneonta. In addition, train 306 would leave Oneonta at 8:20 a. m. for Binghamton and intermediate stations as formerly.

Practically this provides for merging the two morning trains now leaving Binghamton into one, leaving at 5:15 a. m. and affording morning service northbound and for merging the two trains now leaving Albany at 10 a. m. and 3:30 p. m. into one train, leaving Albany at 2:15 p. m. and affording afternoon local service between Albany and Binghamton and permitting train 308 to remain a fast train, leaving after the arrival of the two trains from New York city and arriving in Binghamton in time to connect with the Erie train for the west.

Mr. Loree discussed the situation at some length with the Oneonta committee, assuring them that the company desired to give the best service possible with four trains each way daily, which are considered all that the company can well operate under existing conditions. He is aware that some would be inconvenienced by any change in schedule, but an earnest effort has been made, he assured the gentlemen, to give the maximum service with the minimum of inconvenience. He said that the north-bound schedule with four trains seemed easy to solve as above indicated, but that the south bound service had been more difficult to adjust. All are familiar, no doubt, with the necessity of making No. 303 a fast

PARLIAMENT OF CHINA DISSOLVED

Presidential Mandate Signed By Acting Premier

CIVIL WAR EXPECTED

Leaders of Southern Provinces Refuse to Recognize Authority of President Li Yuan Huan

Peking, China, June 13.—The presidential mandate dissolving parliament has been signed by Ching Shao Chung as acting premier, who accepted the post which Dr. Wu Ting Sang, former ambassador to the United States resigned. It is believed that the dissolution of parliament will bring about civil war as the leaders of the southern provinces have telegraphed President Li Yuan Huan that they no longer recognize his authority.

Ching Shao Chung was chief of police in Peking before accepting the post.

UPHOLDS PRESIDENT BUTLER

Justice Ford Says He Is Justified In Withholding Degree.

New York, June 13.—Supreme Court Justice Ford denied today the application of Miss Eleanor Wilson Parker charged with anti-conscription activities for a writ to compel Dr. Nicholas Murray Butler, president of the Columbia university, to confer upon her the degree of bachelor of arts.

Miss Parker, a member of the graduating class of Barnard, was arrested with two other Columbia students on the charge of conspiracy. It was for this reason that her degree was withheld.

train and how to give the service between Albany and Oneonta essential for mail and express service by a night train without too radical interruptions of the regular day service, has been the problem. He declared that the operating officials have been studying this problem since the discontinuance of two trains became necessary. He expressed it as his opinion that the proposed schedule will afford the service most needed and to the largest number of patrons.

The Oneonta committeemen assured Mr. Loree that the schedule as now proposed will meet practically all the objections urged against the earlier proposal to drop both night trains with little change in the time of the movement of the other trains. They expressed a conviction that it will be acceptable to all residents between Oneonta and Albany and in fact along the entire division as being the best possible arrangement of four trains each way daily. It gives both Binghamton and Oneonta an early morning train northbound and enables those north of Oneonta to reach Albany and spend the middle of the day, the last half of the day, or all day in Albany, returning the same night.

Mr. Smith, speaking for the Oneonta Chamber, thanked Mr. Loree for the spirit with which the company has endeavored to meet the friendly requests made in behalf of the residents of Oneonta and along the line north of Oneonta and assured him that the schedule announced will be all that should be expected for a war time schedule. It certainly distributes the trains equitably and supplies the demands which were most insistent from all points.

While some slight changes may be made in the schedule as thus announced, Mr. Loree gave the committee to understand that the new schedule will be substantially as stated and will become effective June 24. Oneonta is to be congratulated upon the same handling of this perplexing problem and the friendly consideration of D. & H. officials.

STATE WILL NOT TAX CITIES TO EXCESS

SAGE TELLS MAYORS SO; WANTS HORSE VEHICLES TAXED

Buffalo, June 13.—At the banquet given here tonight by the citizens of Buffalo to the state conference of mayors and other city officials, Senator Henry M. Sage, chairman of the senate finance committee, expressed the belief that the cities need have no fear that the state in looking for additional sources of revenue will cripple them. He assured the city officials that the state realizes the necessity of the case, has a distinctly fellow feeling for the cities, and will not intentionally encroach on their preserves.

"For the past few years, said Senator Sage, 'the state's policy has been to divide with the cities in every case where both state and city seemed to have a common interest in the source of revenue. There is, however, one instance where I do not believe in the division, viz, the automobile tax. I feel that the theory behind this tax is that the automobiles are paying for a part of the injury which they do to the roads. If this is true all the money collected from the automobiles should be spent on the roads which they have injured.'

"All of this money should go to the state to be spent for the upkeep of the state and county highways and a small wheel tax should be imposed on all who use the roads with horse drawn vehicles. This is a reasonable and just tax and would, I believe, remove any real objection to the automobile tax even if the tax were increased to a point where the users of the highway practically paid the expense of their upkeep."

"As to the state's future sources of revenue, I believe first that each year a direct tax should be imposed only for the purpose of our interest and sinking fund requirements. This would act as a check on the people voting large bond issues whenever they have a chance. With this as a nest egg our present sources of revenue are sufficient for a time if the new corporations income tax fulfills expectations. For the future and the very near future I absolutely believe in an income tax and I am particularly in favor of the new corporation income tax because it is a long step toward that end."

Cornelius M. Burns, mayor of Troy and president of the conference, presided at the opening session today.

Mayor Walter K. Stone of Syracuse submitted the report of the committee on food supply. The committee, he said, has co-operated with the state department of education in a vacant lot garden campaign and he added reports from all parts of the state show that in practically every land under cultivation has started and is succeeding. To help solve the problems of distribution this committee urged that each city as soon as practicable establish a department of markets.

FINANCIAL AND COMMERCIAL

New York Markets.

New York, June 13.—The market acquired a new lease of life today primarily on the overnight decision of the directors of the United States Steel corporation to declare another "extra" dividend of 3 per cent on the common stock for the current quarter.

This action, it is believed, virtually insures full dividend returns of 17 per cent on the common shares for the calendar year. Moreover, it bespeaks the confidence of eminent trade authorities in the future of the steel industry. Bethlehem's new stock also established a new maximum at 155 and Industrial Alcohol recorded a similar achievement at 17½, both issues receding moderately at the end.

A general increase was manifested in all parts of the railway division. Shippings, oils, motors, utilities and numerous unclassified specialties participated in the rise at a gross advance of 1 to 4 points. The only stock to display heaviness was D. & H., which yielded almost 3 points on litigation involving payment of the next dividend.

FOUR BOYS AUTO TO COLLEGE.

Young Men of Laurens Depart for Berkeley, Cal., to Enter University.

Four young men of Laurens will take the road today for the far west, where with the opening of the fall term of college they will enter Berkeley university. An interesting fact regarding the matter is that the trip will be made all the way by auto, the general course being to Erie and Chicago and the great Lincoln highway. The boys are all graduates of the Oneonta High school, and will without doubt sustain the high standing of that institution. They are Alton Platt, '14; George Platt, '13; Fred Strong, '12, and Linn Strong, '14. Their

The trip from Laurens will be to Oneonta and Binghamton, thence to Erie, Pa., and Chicago. The route is well mapped out and the boys expect to take their time for the trip, arriving in plenty of time for the opening of the college year.

FIRE AT SIDNEY.

Ontario and Western Roundhouse Destroyed Yesterday Morning.

Sidney, June 13. — The O. & W. roundhouse in this village was entirely destroyed by fire early this morning. Two locomotives, which were in the building, were badly damaged. The fire was first discovered shortly after 6 o'clock and had made such headway that it was impossible to get the engines out. Charles Shofron and Clifford Godfrey, watchmen, were cleaning the fires on two other engines, a short distance away. They had both been in the building about an hour before and attended to the two engines housed there, Nos. 250 and 182. The alarm was sent in and the firemen promptly responded, but the fire had such a start that there was no chance of saving anything.

Lift Corns Off With Fingers

Doesn't hurt a bit! Corns and calluses loosen and fall off! Magic!

Few drops of Freezone take all pain and soreness from corns instantly

No hump! Any corn, whether hard, soft, or between the toes, will loosen right up and lift off, without a particle of pain or soreness.

Wonderful discovery by Cincinnati man

This remarkable drug is called Freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of Freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus. Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus

will loosen and can be lifted right off with the fingers. Freezone doesn't eat out the corns or calluses but shrivels or rather loosens them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. Try a little and see for yourself. It is surprising.

Few drops stop corn-pain

Take soreness from any corn or callus instantly

Women should keep Freezone on their dressers and never let a corn ache twice. If a corn starts hurting just apply a drop. The pain stops instantly, corn goes!

Try bottles of Freezone cost but a few cents at any drug store.

In order that the stockholders of the United States Steel corporation may be able to assist the Red Cross, the company has declared an extra dividend of one per cent. The amount of the dividend is \$5,083,025, and if the stockholders carry out the intention of the company, the Red Cross will be just that much ahead.

Since the war began there have been 1,250,000 horses and mules sent from America to Europe. The remarkable thing is that despite the sending of so great a number, there has practically been no increase in prices. Doubtless the increased use of motor vehicles has released many horses for the battle service.

Greece, after a long period in which the sentiment of the people pulled one way and the will of the king the other, has at last got rid by a process called abdication, of King Constantine. With him goes the crown prince, and in their place comes the Prince George as head of the state. George himself is understood to be pro-German, but whether he is or not, he will not be allowed to interfere with the desires of the people. Greece will now join the allies, which she should have done months ago.

The Springfield Republican is authority for the statement that speculators in that state are trying to buy up the potato crop either by the bushel for fall delivery or the patches at this time as they stand. It is alleged to be a first step toward cornering the market, and it should not be encouraged. If potatoes are to bring a high price, the grower might as well have the money; and in any event no loyal farmer should be willing under present conditions to help speculators, against whom he has always inveigled, to corner the market for foodstuffs.

The New York Times correspondent in London, calling a contrast between the London's welcome to Pershing and that of New York to Balfour, calls the former a summer zephyr as compared to a Kansas cyclone. And yet there is no doubt that the arrival of Pershing has awakened deep feeling in England. The real difference is temperamental. London feels as deeply but she has not the ebullience of spirit which distinguishes cosmopolitan cities like New York and Paris. So there is no need for disappointment about London and Pershing. In fact a state Englishman might feel as deeply but he would be merely ludicrous cutting Parisian capers.

The evil effects of procrastination were perhaps never better shown than in the case of King Constantine of Greece, who lately by request of the allies, has abdicated in favor of his second son. Early in the war there were two courses open to him. He might have thrown in his lot with the allies and have been proclaimed a worthy successor of Bozaris and other liberators of his land. He might have turned to the Central powers where in fact his heart has been all the time; and in either case his personal popularity probably would have carried the nation with him. In fact he did neither. He dithered, shuffled and evaded the issue, and in the end his people drifted away from him. Procrastination had done its work.

AMERICA AND THE WAR.
We are in the war to win. If we do not win then Germany will go across with a demand for vast indemnity, and we must pay.

It is a war in which every country among the allied nations is doing not only its bit but its best. It is a war in which it is not considered enough that anybody should do merely one thing. Whatever one can do in any line it is our duty to set ourselves about doing.

It will be months yet before the large army of Americans we are presently to recruit will be fighting in the field. Of course many regulars and present volunteers will be in the trenches, but the larger part of our troops are yet to be raised, drilled and transported over seas, and the completed work is as yet months off.

America, also, can provide food for the allies from her abundant fields, but the food will not be ready for shipment until the coming autumn. In the meantime, we must save and by proper sorts of economy furnish as much as possible of the grains saved from the surplus of the past year.

These things we can do are therefore largely in the future, but we can do one thing now—and a very important thing. We can buy a liberty loan bond. There is urgent demand for money, and money is the chief thing at this instant demanded for carrying on the war.

There is no doubt that the government can get the funds. If they cannot be had by subscription, then they can be secured by taxation, and doubtless they would be. But we cannot believe that our people will be so oblivious to duty, so smugly self-assured that we are not going to be disturbed,

by delay to compel any such course to be taken. It is our duty to buy the bonds, because of the moral effect on the Central powers, and for the effect on our own allies and at home.

There are two more days yet before the time for subscription expires. Before that time is ended it is hoped that the loan will be much more than subscribed. The banks may take it all if individuals do not; but the best thing is to have it widely distributed in the states and among all the citizens. No subscriber for a small bond need fear that he will not obtain it. If there is a surplus of subscriptions, the allotment of the banks and large subscribers will be cut down, since the government wisely thinks that it is best for as many people as possible to have a stake in the country.

It would be a lasting disgrace should the United States fail to subscribe for every dollar of this loan.

IN A SPIRIT OF GOOD WILL.

As is noted in another column of The Star this morning, the Delaware and Hudson company is arranging for a new time schedule which, while it will not in every way meet the wishes of every patron—what time card ever would?—will at least give a reasonable degree of service on the entire Susquehanna division. During the past month the company experts have been at work, figuring with intent to arrange the schedule for the best interests alike of passenger and freight departments. The time card, which practically they have completed, will do this. It will take off two passenger runs between Albany and Binghamton, but it will so rearrange the others as to give a good degree of accommodation to the traveling public. It is always difficult to arrange a railway schedule so that the multi-form interests of the company, the shippers and the passengers may be accommodated. At best any such schedule is a compromise, but in the present instance it is a very satisfactory one, wherein the company has met its patrons fairly. And in any event, the request of the government that train service should everywhere be readjusted with a view to accommodating the national demand in time of war should be fairly met and fully complied with.

ELKS PUSHING BOND SALE

INDIVIDUAL MEMBERS HAVE PURCHASED \$35,350 WORTH OF THEM.

Will Have Tent at Ford Avenue Corner after Flag Day Exercises with Band and Male Chorus to Entertain Throng.

Members of the Elks lodge here have purchased, so far as could be learned last night, \$35,350 worth of the Liberty loan bonds, with the probability that the amount is nearer \$40,000, owing to the fact that the numerous members have not reported as to purchases. The lodge, appreciating the emergency that confronts the nation and the importance of having the issue sold Friday night, will on Friday wage an intensive campaign to push the sale. To this end the committee having in charge has arranged for a tent to be placed on the lawn at the corner of Main street and Ford avenue, where, following the exercises at Wilber park, a concert will be given by the City band and a male chorus. The program will be impromptu, but many good voices will be heard in the chorus work and the public is invited to attend.

Both at the park and about the tent will be a force of voluntary workers who will do personal work in an unobtrusive manner among the throng. It is being learned at this late hour that many would-be purchasers do not understand that the bonds can be purchased on the partial payment plan, after the first payment shall have been made, which is nominal, from savings that may be made from the regular income. Several additional sales were made yesterday when this feature was explained. Others have not understood that they were securing a first-class security, which virtually amounts to a first mortgage upon all the property within the United States with interest payable semi-annually, with tax exemption features. Financiers have insisted that this issue is one of the best investments that residents of the country can make.

All of these features will be fully explained to throngs in attendance and every effort will be made to secure a large sale of the bonds on this patriotic day and during the final hours of the campaign.

There will be a delegation of Company G at the tent and the entertainment given will be worth hearing in any event.

Hartwick Man Wins VanOrden Prize.

Many friends of Ernest B. Augur, who is a son of Supervisor George Milton Augur of Hartwick, and who entered Union university as a freshman last fall, will be interested in a press dispatch of yesterday from Schenectady, reading as follows:

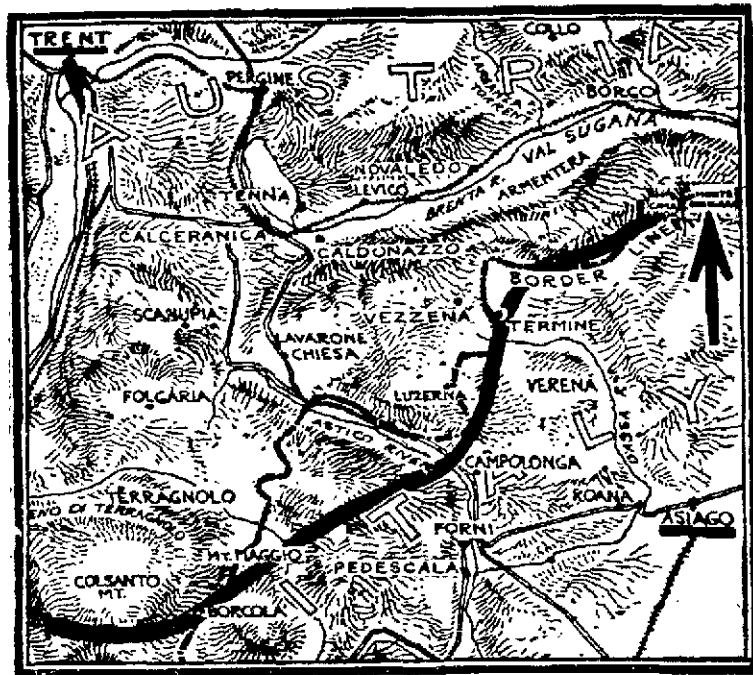

"Ernest B. Augur of Hartwick was awarded the VanOrden prize announced at the commencement of Union college here today. This prize is awarded annually to the member of the freshman class for general scholarship in English and for merit in a submitted essay. Mr. Augur is a member of the Phi Gamma Delta fraternity, the Press club and the staff of the Concordian."

Unassailable.

A Liberty bond is free from taxation, the interest and principal will be paid; the bonds can be bought in all denominations, paid for in installments, if bonds of a higher rate are ordered, the present bonds will be exchangeable par for par; they will have a ready cash market and will be accepted in many places of business and banks as so much cash.

Is there any other gilt-edged security that offers the same advantages?—Julia Oberver.

BLANKS BEGIN TO COME IN

One Hundred and Fifty Completed Blanks Received Yesterday—More Assistants Needed.

The enumerators, who on Tuesday fairly began their work, got down to business yesterday and as a result 150 completed blanks were turned in last evening. There are many others which have not yet been sent in but which have been completed. It is, however, evident that a great deal of time will be required satisfactorily to complete the work, and in order to finish between the dates specified there must be a much larger number of enumerators. On this account Superintendent Marshall earnestly requests the service of more men and women over 21 years of age, who can assist in completing the military census.

Today being Flag day, the office, which will be open in the forenoon, will be closed at noon, but will reopen in the evening. Those of the age above specified and who are willing to perform a patriotic duty by assisting in the census are invited to come to the office today and receive instructions and blanks for carrying on the work.

In order that the work may be expedited and that citizens may be saved trouble as far as possible, special enumerators will be assigned to the D. & L. shops, Buckley Bros. factory, Elmore Milling company, Paragon Silk mill, Gloversville Glove factory, Fox Memorial hospital, the Otsego & Delaware Telephone company, the Kayser Glove factory, the State Normal school and the teachers and girl students at the High school.

Besides those willing to assist as enumerators, clerical assistance is also needed, and it is asked that those who can assist in this way notify the census bureau, which is located in the mayor's office, of their willingness to aid. The telephone call for the census headquarters is 170-two rings.

Doubtless, now that the enumerators are becoming more familiar with the work, a larger number of completed blanks will be turned in daily.

RESOLUTIONS OF RESPECT.

Adopted by New York State Mayors Conference at Buffalo.

At Buffalo yesterday the following prepared by Mayor A. E. Ceperley at the request of President Burns of the Mayors' conference were unanimously adopted:

Whereas, since the last conference of Mayors of the state of New York convened, the Silent Messenger of Death has entered our ranks and removed one of our esteemed and useful members, Honorable Joseph Seth Lunn, mayor of the city of Oneonta, who died May 5, 1917, after having completed nearly four years of faithful service to his community as mayor, and

Whereas, the decease of this stalwart American and patriot at a time when his services were of such great value and marked by unselfish devotion, makes the loss greater and the separation harder to bear, therefore be it

Resolved, that in the departure of Joseph Seth Lunn, the Mayors' conference of the state of New York loses a genial and devoted companion; one whose opinions and advice were of value to this organization, and whose wise counsel was regarded with serious consideration, therefore be it further

Resolved, that this conference at its eighth annual session held in the city of Buffalo, N. Y., on the twelfth day of June, 1917, expresses its profound sorrow and sympathy to the widow and other members of his family, and assures them that his associates were inspired to greater service by his noble and unselfish life, and that the memory of his unwavering loyalty to his city shall always remain fresh in their minds. Be it further

Resolved, that these resolutions be spread upon our minutes, and that a copy be sent to the widow of the late mayor, Joseph Seth Lunn.

Woman's Club Buys Bonds.

The Woman's club of Oneonta has again evidenced its enterprising and public spirited interest in public affairs by investing \$200 of its surplus in Liberty loan bonds. Its action is to be commended.

KINDERGARTEN EXERCISES

Child's Orchestra of Ten Pieces Plays Four Selections to Parents' Delight.

The closing exercises of the kindergarten of the State Normal school were held yesterday morning with 40 of the parents in attendance. All of the little girls were dressed in white and wore white shoes.

Most striking of the entertainment was the playing in very rhythmic time of four selections by a child's orchestra composed of two drums, two symbols, two triangles, two tambourines and two castanets, which was led by a little boy who beat time while the different instruments played part-music.

The children built a model barnyard out of blocks on the floor of the kindergarten room with a barn, a chicken yard, a pig pen, and a dog kennel, and scattered miniature animals around to make it appear natural. One of the little girls sat on the platform of the room while she rocked her baby doll to sleep. There was an exhibit of the children's work, which included Indian hats, rag dolls and dresses made from original designs by the children.

LOCAL MENTION.

—Official car No. 400 of the D. & H. was brought to Oneonta from Albany last evening for repairs at the local shops.

—The interment services of the late C. F. Thurnau will be held at Riverside cemetery at 1 o'clock today. Rev. C. S. Pendleton, D. D., officiating.

—Any member of the Red Cross of the city not supplied with a membership button may secure one by applying at the office at Room 8, Oneonta Hotel office building.

—Trading at home is a mighty good investment.—It pays bigger dividends than anything we know of, and you have the satisfaction of helping along the general prosperity of the city.

—William Lunn has purchased of Fred N. VanWie a Grant six cylinder, five passenger touring car with white wire wheels, which makes a very creditable appearance on the streets of Oneonta.

—Owing to the absence of various members of the city board of health from Oneonta, there has been no action this week on the matter of licenses for garbage collectors. It is likely that a meeting will be held on Friday.

—The stores and business places quite generally will close at 12:30 today to permit of a general observance of Flag day and it is hoped that all offices and factories where possible will unite in the plans for a fitting observance of the day.

—Tomorrow there will be a conference at the Windsor hotel in this city between Edward VanAlstyne and Prof. D. J. Crosby for the state and all persons interested in the assignment of farmers' institutes and extension schools in Otsego county the coming winter.

—The Salvation Army will observe Tag day today in all the towns and cities wherein branches of the army are located. The proceeds will be devoted to the organization of an ambulance unit, and to its equipment and the establishment of shelters for soldiers and wounded men.

FLAG DAY DEMONSTRATION

EVERYTHING IN READINESS FOR ONEONTA'S BIG PATRIOTIC CELEBRATION.

Old Glory to Be Unfurled Amid Impressive Military Exercises—Pupils of Public and Normal Schools to Give Interesting and Instructive Program.

With the promise of clear weather and everything in readiness for Oneonta's big Flag Day demonstration, today's event ought to go down in history, not only as a successful and patriotic demonstration, but an occasion made memorable by the hearty cooperation of the loyal citizens of Otsego county.

The committee and the various organizations were engaged yesterday in completing the details incident to the proposed events. The pupils of the public schools and the Normal girls were given their final drills. These exercises of the various schools at the park should not only be impressive but decidedly instructive.

The 70 foot flag pole which has required much work to prepare, has been located on a point of vantage in Wilber park. The big pole is very straight and attractive, and when Old Glory is unfurled from it today amid military exercises under the direction of Captain Keepers and Company G, N. G. N. Y., the flag can be seen from almost any point in the city. The pole is located west of the entrance to the park on Walling boulevard, which will not interfere with any activities that may be desired later on in the park.

After the flag raising exercises are over, and one or two other numbers are disposed of, interest will center in the program which will be carried out in the basin or stadium adjoining the creek—that part of the grounds which is used by the boys as a baseball field. By completing the program at this spot the people will be enabled to get an unobstructed view.

The parade will form at 1:30 o'clock on lower Main street below Market and also on Market and on Fairview streets and move promptly at 2 o'clock through Main street to Wilber park. The different organizations will meet in their respective meeting places as requested and await instructions from the marshal of their division.

The fire bell will sound four strokes about 1:30, which will be a signal for the parade to form. After the formation is completed the fire bell will sound two strokes at 2 o'clock and the parade will move. This will be followed by the ringing of church bells as the line of march is passing through Main street.

The Red Cross has arranged a splendid demonstration. Thirty-two girls will be regaled in Red Cross uniforms and will represent the 32 nurses as applied to a military unit. It is also stated that this organization may have another surprise in store for the spectators.

It is urged that every man and woman who is not associated with any organization will take part in the parade.

(Concluded on Page Eight.)

THREE HUNDRED THOUSAND.

Impossible to Get Accurate Figures of the City.

While much more has been asked it is gratifying to know that according to the best estimates available Oneonta has sold nearly \$300,000 worth of the Liberty Loan bonds with two full days left in which to work, with indications that the subject is coming to be more fully understood and the easy payment plan appealing to many who had not fully understood this feature.

Speeches were made in all the moving picture theatres last night with active work among the throngs as they left the theatres by special caravans and with the Boy Scouts persevering with all who will listen to them on the streets and making sales daily the total amount will be larger than was feared. Then too the Elks are to get busy as told in another column so that Oneonta's total will be well above any mark that was thought possible a few days since. If the improvement continues throughout the country the nation will doubtless be saved from disgrace. The loan should have, however, been over-subscribed several times.

Attention, Special Officers.

The special officers organized as a Home Defense union are urged to meet the Municipal building today at 1:30 o'clock to participate in the Flag Day parade. Please carry a small flag and wear white gloves.

CHILD DROWNS IN RIVER

CRIPPLE WANTING TO LEARN TO SWIM IS DRAWN UNDER BY SWOLLEN CURRENT AND CARRIED DOWN STREAM.

Accompanied By His Seven-Year-Old Brother Who Could Not Save Him—No One Near to Render Aid—Police Make Unsuccessful Attempt to Find Body—Mother Broken Up.

Standing on the dike bank of the "Strawberry" swimming hole on the Susquehanna river, about a quarter of a mile above the Main street bridge, Stanley Rock, eight years old, was preparing to plunge into the water shortly before 2 o'clock yesterday afternoon, when the rushing stream, swollen by the recent rains, undermined the rocks on which he stood and with them swept him down the stream.

According to the story told by his seven-year-old brother, Carlyle, the only one who was with him at the time, Stanley, although he was a cripple and could not make free use of his right leg, and though unable to swim, was bound that he would teach himself. So the older boy stripped and threw his clothes on the bank, after which he slipped around behind a bush out of sight of the younger boy. When he had been gone for a few minutes, the younger fellow went to see how he was getting along, but could not find him. He searched around the bush and then looked out on the river just in time to see his brother's body bob to the surface of the water beyond his reach and float down stream.

No one was anywhere around to render aid and the seven-year-old child, not realizing the danger his brother was in, made no efforts to reach him, but picking up his clothes strolled along the bank following the body.

Just about 2 o'clock Mrs. E. L. Hall, with her neighbor, Mrs. Lester Green, was driving her buggy over Main street bridge. Chancing to glance up the river, she called her companion's attention to a floating object and remarked that it looked like a child's body. Then as it floated nearer, it was found to be a boy's naked body, drifting head first down the river.

Mrs. Green jumped from the carriage and ran to the west end of the bridge to get a better view, but by the time she reached there it had either sunk or had been carried beyond the bend. At the same time, the two women noticed Carlyle calmly walking along the bank.

E. D. Lewis just then drew up in his automobile and upon learning the circumstances, found Officer Ellis Brown and informed him. The officer phoned to police headquarters and got the wires going, notifying towns as far as Sidney to be on the watch for the drifting body. He then proceeded to the lower bridge, to watch. In the meantime the other members of the police scoured both banks of the river until late in the afternoon without success. Because of the swiftness of the river it could not be dragged nor could a net be stretched across to intercept the body. The body had not been found late last night.

Neighbors notified the mother of the boy, Mrs. Carmie Lock, at her home at 28 Burnside avenue, who was very much upset by the news. The boy is survived, besides his brother, Carlyle, and his mother, by his father, Carmie Lock, and another brother, Mamford, aged 11 years.

His father had lived with his wife for some time, and a telegram was sent to him in care of his mother at Anable Forks in an endeavor to reach him.

More Motor Cars Needed.

With 50 cars needed only 20 have thus far been offered for the transportation of members of the G. A. R. and of the Woman's Relief corps and others unable to walk in the parade today. Others who will provide cars are urged to notify my office before noon today by phone or in person. The need is urgent. L. P. Butts.

BEWITCHING ALICE BRADY.

In the Dancer's Peril at the Oneonta Theatre Today.

The tremendous popularity of Alice Brady as a film star will be greatly enhanced by her appearance in "The Dancer's Peril," which feature is the attraction at the Oneonta theatre today, matinee and evening. This drama, in which Miss Brady appears as the star of a Russian ballet, presents stupendous scenes, a big cast of characters, magnificent costumes and a splendid story. Miss Brady is particularly pleasing in her dances. A late Pathé news is the added feature. This is positively a wonderful program, and should be seen by all lovers of the silent drama. Three performances daily, admission 10 cents. Matinee at 2:30 p. m. today. Tomorrow the faintest star of filmdom, Anita Stewart, in "The Glory of Yolanda."

CALLED TO THE SERVICE

DR. A. W. CUTLER WANTED AS EXAMINING SURGEON AT PLATTSBURG CAMP.

His Going Would Be a Great Misfortune to City and to Fox Hospital. While Others Could Serve Acceptably at Plattsburg.

Dr. Arthur W. Cutler, who more than a year since, at the instigation of the medical college from which he graduated or its alumni organization, volunteered for the reserve force of the Medical corps, has been notified of his appointment as medical examiner at the Officers' Training camp at Plattsburg and been requested to report for duty there at an early date. The request was that he report for duty yesterday, but the time has been extended a few days and the understanding is that he is preparing to relinquish his practice and report later in the week.

While the patriotic impulses which inspired Dr. Cutler to offer his services to his country cannot be too highly commended, and it doubtless will be contrary to his wishes to have any action taken, yet Oneonta should not permit one so useful to this community, both medically and surgically, to be called for this service. Were there any emergency such as wounded men suffering for skilled surgical attendance there probably would be no word of protest from the residents of the city. At the present time, however, no such condition exists and the work to which he has been called is such that any well trained physician younger in years and less qualified to relieve distress and less serviceable to the community in which he resides could perform it satisfactorily and with efficiency.

Dr. Cutler is the chief surgeon at the Fox Memorial hospital and of the D. & H. company and daily is performing operations of the most delicate character here. It would be nothing short of a calamity to take him away for this work at this time. If sufficient effort be made the assignment can be cancelled and he permitted to remain here where his duty lies at present. There should be no cessation of effort to this end until it is accomplished.

HATHAWAY HOUSE RE-LEASED.

Charles W. Bishop of Unadilla Takes Over Management of Hotel.

Charles W. Bishop of Bishop's hotel at Unadilla has taken over the lease to the Hathaway house in this city, recently acquired by Mr. Verguson of East Sidney, and will conduct the hotel. He has taken possession of the property.

Mr. Bishop is well known to the traveling public and always had the reputation of conducting a first-class hotel in Unadilla and no doubt will be able to restore the hotel to the prosperity it formerly enjoyed during the conduct of the business by the late Mr. Easton. Mr. Bishop is expected to return to Oneonta from Unadilla this morning and will assume active management of the property.

Receives Pleading Remembrance.

Ivan Grant, a boiler-maker in the D. & H. shops, was very pleasantly surprised yesterday morning, when he received at their hands a signed ring as a token of their kindly remembrance and a "good luck" wish. The presentation was made by Mr. Williams, and there were remarks also by Messrs. Clay, Fabey, Weist and Larrabee. Mr. Grant was deeply touched by the gift and the kindly words, and made a brief and entirely fitting reply. He left last evening for Philadelphia, Pa., where he joins the engineers corps which shortly is to sail for France.

Kenneth Griffin Injured.

Intelligence has been received by Thomas Griffin of this city that his son Kenneth Griffin, formerly employed at the Citizens' National bank, was recently injured at the Washington barracks to which he was transferred. He suffered a ruptured ear drum because of being too near a large gun when it was fired, the concussion causing the trouble. It is understood that he will be obliged to remain in the hospital for two or three months. His many friends in the city learn with regret of his misfortune.

Still More Volunteers.

H. R. Bladnor, resident manager of the Oneonta theatre, Fred L. Beach, night clerk at the Oneonta, and Jack Sitts, the well known motor car salesman, all volunteered yesterday and were accepted as members of the Quartermaster's corps for service with Captain Jesse A. Millard of the field bakery. They will be mustered in with the rank of corporal.

Twenty Dollars for Red Cross.

The class of young ladies taught by Mrs. W. P. Blake in the First Presbyterian Sunday school has raised the sum of \$20, which by request Mrs. Blake has just forwarded to the treasurer of the Red cross in Oneonta for use in the purchase of supplies. The young ladies are all of them students of the Oneonta Normal school. Their generous gift will be fully appreciated.

MARRIAGES.

Mitchell-Houck.

North Kortright, June 13. — On Wednesday, June 6, at the home of Mr. and Mrs. Charles Houck, occurred the marriage of their only daughter, Eva Irene, to Carl Arthur Mitchell of South Worcester. After congratulations, a wedding dinner was served. Mrs. W. D. Galt of North Harpersfield acted as cateress. Only the immediate relatives of the bride and groom were present. A large number of presents, consisting of cut glass, linen, silver and money, attested the esteem in which the couple is held. After a short wedding trip to Binghamton and Pennsylvania, Mr. and Mrs. Mitchell will be at home on the old Mitchell homestead, above South Worcester.

Fox-Pond.

Albert Fox and Miss Sarah C. Pond, both of Binghamton, were united in marriage last evening at the Methodist Episcopal parsonage by Rev. E. M. Johns.

DEATHS.

Wallace W. Bates.

Wallace W. Bates of 406 Chestnut street, died this morning at 1:30 o'clock. Further announcement of the life of the deceased and the funeral arrangements will be given in Friday's issue.

Red Cross Caps and Aprons.

A limited number of Red Cross caps and aprons will be on sale this morning at 11 o'clock in Red Cross headquarters, room number 8, over Citizens' bank. Price of apron alone \$1.00, apron and cap \$1.25. It is suggested that members buy the uniform and wear it in the Flag Day parade today. This is the uniform approved by the Red Cross to be worn while making all varieties of surgical dressings and has been adopted by the Oneonta chapter.

June White Sale

These June sales of white become more important each season because women realize the great advantage they offer. We take pride in announcing the sale this year because we have surmounted the difficulty that most stores will have in getting the merchandise to sell at a price any thing near as low as was possible to make on previous occasions.

Muslinwear, White Goods, Blouses, Skirts, Dresses, Domestic, Linens, And Other White Things Included.

In planning for this event, we have chosen very discriminatingly in order to avoid the poorer qualities of merchandise which now flood the market. We, therefore, urge you to buy liberally so as to take advantage of these superior grade of goods at prices made possible only by early purchases.

This is the time for you to procure white wearthings for the summer.

SEEK TO RECOVER \$2,300

SUIT OF CLARENCE F. BAKER AGAINST CONRAD YAGEL TO END TODAY.

Case Involving Many Novel Features on Trial This Week at Cooperstown before Judge Kiley and a Jury.

It is expected that the suit of Clarence F. Baker against Conrad Yagel to recover \$2,300 for breach of contract, which has been on trial all this week before Justice Kiley and a jury, will be finished and given to the jury about noon today. The case is based upon a claim of damages, it being alleged that the plaintiff had a lease of the store formerly occupied by the Baker's French shop with 7 1/2 years yet to run when the fire occurred, since which time the Baker's have been unable to secure the property, according to their evidence. The claim is for the difference between the rental price fixed in the lease and the sum for which the store could have been re-leased for the period named. It is claimed that Mr. Baker had a tenant ready to take over the lease at an increased rental and that he suffered a loss in the amount claimed. The defendant alleges that the plaintiff deliberately damaged the building and voluntarily surrendered the lease. There are many difficult problems involved in the action and the case is attracting no little interest.

The plaintiff is represented by City Attorney Owen C. Becker with Judge Willis of Cooperstown assisting, while the defendant is represented by George L. Rockes with Hon. William H. Johnson of counsel. On the direct evidence the plaintiff swore some seven witnesses and the defendant some 20 witnesses. Later in rebuttal the plaintiff offered the evidence of about a dozen more witnesses. Both sides have finished their direct evidence and last evening when court adjourned Mrs. Baker was on the stand in rebuttal for the plaintiff. It is thought that the case will be finished by noon today and at the latest it will be given to the jury shortly after noon. The defense appears to be relying upon the fire which occurred in the store of the plaintiff as justification for refusal longer to permit him to occupy the building, although other defenses are set up in the answer. The case has attracted about 40 people from the city to the county seat during the week. Much of the evidence of the plaintiff has been as to the rental value of the store while the defendant has had much evidence of a more or less pertinent character relative to the fire.

UNADILLA SCHOOL BOARD.

Capable Men Chosen for Duties Under New Law.

A meeting of the members of the present board of education of the Unadilla High school and the trustees of the common school districts throughout the town was held at Assembly hall Tuesday, to elect a town board of education, as required by a recent act of the legislature.

A resolution was adopted that the High school district be allotted two members and that the other three should be elected from the country districts. Twenty trustees responded to the call and unanimously elected the following:

Hon. Charles C. Flaesch, for three years.
John J. Youmans, for two years.
Trevle G. Nichols, for two years.
Henry A. Sisson for one year.
Clark E. DeForest for one year.

Mr. Flaesch served for a period of ten years on the High school board and was president during the years 1904-1912. Messrs. Youmans, Nichols and Sisson are substantial farmers residing in the country. Mr. DeForest is the present postmaster at Unadilla, and served for a long time as supervisor and has held different town offices.

The trustees elected are all very much interested in educational affairs and hope to maintain the high standard which it is generally recognized has prevailed throughout the entire township in years past.

OFFICERS CHOSEN.

Free Baptist Ladies' Aid.

At the annual meeting of the Ladies' Aid society of the Free Baptist church, held yesterday, at which Mrs. C. S. Pendleton presided, Mrs. O. A. Miller reported that the society, co-operating with the Mission circle, has made and forwarded a unit of supplies for the Red Cross, which has been approved and accepted.

The following officers were selected: President—Mrs. C. S. Pendleton.
Vice Presidents—Mrs. L. E. Morgan, Mrs. O. A. Miller, Mrs. D. O. Webb, Mrs. Sprague and Mrs. Newton.
Recording Secretary—Mrs. John Bell.

Assistant Secretary—Mrs. George Gibbs.

Treasurer—Mrs. Sarah Couse.
Mrs. Couse has served the organization for about 20 years as treasurer and very acceptably. Later plans of work for the ensuing year were discussed and before adjournment Miss Minnie Parks gave a pleasing recitation.

Board of Education in Otsego.

Tells How to Stimulate Growth of Thick, Lustrous Hair.

A luxuriant head of hair is God's blessing to every man—to every woman. If your hair is thinning out, splitting, prematurely gray, brittle, difficult to comb, full of dandruff, and your head itches like mad, it's a pretty sure sign the hair roots are diseased and quick action should be taken. Don't wait but go to H. B. Giddens and get a bottle of Parian Sage, the really efficient hair grower. Don't say "It's the same old story, I've heard it before," but try a bottle at their risk. They guarantee it to stop falling hair and itching scalp and remove all dandruff or money back.

Parian Sage is also woman's favorite hair dressing, because it makes her hair soft, bright, seem more abundant and easy to dress attractively. It is guaranteed harmless and is inexpensive.

FARM BUREAU ACTIVITIES

MISS FREER RESIGNS AND IS SUCCEDED BY MISS EGGLESTON OF COOPERSTOWN.

Bureau Considers Means of Marketing Farm Produce in the Fall to Prevent Speculators Reaping a Harvest.

At a meeting of the directors of the Otsego County Farm bureau, held at Cooperstown yesterday, the resignation of Miss Florence Freer, the capable head of the Home Economics department of the bureau, was accepted, she having been called to an important position with the state department in charge of the bureau of the state with headquarters at Ithaca. Miss Freer will be the state organizer of Home Economics. The directors elected to the vacancy Miss Eggleston of the faculty of the Cooperstown High school, who will accept if she can secure the consent of the Cooperstown board of education to release her from her engagement there for another year. Miss Eggleston is highly recommended. She is a graduate of the Albany Normal college and is believed to be especially well fitted for the position to which she has been elected.

The directors devoted much of the day to a discussion of what recommendations to make to the state department relative to protection needed in the marketing of food products in the fall to assure to the producers their just share of the prices paid by the consumers. The state department, which has an appropriation of \$300,000, is determined to keep the control of food from the hands of speculators this fall if possible and each County Farm bureau is being requested to consider and make recommendations upon this important subject.

While no definite plan was worked out to suggest it is believed that the department can devise some method of collective marketing which will protect both the producer and consumer against the food speculator. The subject is to be followed and the county bureau will give it the attention that its importance deserves.

More Attractions Arrive

The Five Flying Boises arrived at Sherman lake on Tuesday evening, June 12, and will remain during the summer. They have recently returned from Europe and can relate some very interesting stories about the war there. They will appear in their daring aerial act at the Saturday night show at the lake.

EVERY RAILROAD MAN SHOULD READ THIS

Peterson Bros. Dear Sirs: I was afflicted with what the doctors said were various ulcers and up until about five weeks ago I had been treating them for about a year and five months. With all the treatments that were prescribed to me, several doctors I received little benefit, and they kept spreading and gave me much distress and caused me to quit my work. I was induced by a brother broker to try Peterson's Ointment, and after I had used two boxes I saw the wonderful results. You can tell suffering ones troubled with such painful and horrid ulcers that your ointment is a cure for them when everything else fails, as I have tried about everything.
Thinking you many times over, I am, your friend, Charles J. Howell, Battle Creek, Mich., 42 Glenwood avenue, January 12, 1918.
I know and dozens of people write me, says Peterson, "That Peterson's Ointment also cures eczema, old sores, salt rheum, piles and all skin diseases, and all druggists sell a big box for 25 cents." Adv.
